PROFESSIONAL SUMMARY

Software Engineer with 1+ year of experience in full-stack MERN development and enterprise banking applications. Experienced in building secure, scalable React.js frontends and Node.js/Express backends, integrating REST APIs, authentication mechanisms, and security controls. Hands-on experience with regulated banking systems, biometric integration, and secure data handling.

PROFESSIONAL EXPERIENCE

Associate Software Developer (React.js)

Amnil Technologies Pvt. Ltd — June 2025 – Present

- Develop and maintain production-grade React.js applications for enterprise banking clients.
- Build reusable UI components using React, TypeScript, Tailwind CSS, Shadcn UI, and Ant Design.
- Integrate bank-side REST APIs to support account opening and teller operation workflows.
- Contribute to large-scale banking portals including Machhapuchchhre Bank Account Opening System and NMB Teller Operation Portal.
- Implement response security mechanisms to prevent Burp Suite–based response manipulation and enhance application security.

Software Development Intern (React.js)

Amnil Technologies Pvt. Ltd. – Feb 2025 – May 2025

- Strengthened core JavaScript fundamentals, including ES6+, event handling, and DOM manipulation, through real-world application development**.**
- Integrated frontend components with Node.js / REST APIs as part of a MERN-based recruitment management system**.**

Software Development Intern (Node.js)

Wisdom Technology — Aug 2024 – Feb 2025

- Designed & deployed high-performance RESTful APIs using Node.js & Express.js, improving data flow efficiency.
- Integrated Twilio (SMS) & Khalti (payments), increasing transaction success rates.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, Tailwind CSS, Shadcn UI, Ant Design.
Backend: Node.js, Express.js, Nest.js.
Databases: MongoDB.
Authentication & Security: OIDC, OAuth, Response validation.
Tools & Practices: Git, GitLab, Postman, RESTful API design & integration.

PROJECTS

NMB Bank Teller Portal (React.js)

Amnil Technologies

- Implemented OIDC-based SSO authentication, managing token lifecycle and session flow using React Query.
- Designed and delivered a complete Social Security Fund (SSF) module with step-wise validation and data integrity checks**.**
- Integrated biometric fingerprint enrollment, verification, digital signature pad, Document Scanning**,** and photo capture for secure teller authentication.
- Enhanced security using signature-based response verification to prevent response manipulation.

Machhapuchchhre Bank Limited - Account Opening (React.js)

Amnil Technologies

- Developed a Corporate Account Opening module using React JSON Schema Form (RJSF) to handle complex, schema-driven forms with strong validation.
- Optimized performance and enhanced user experience across form-heavy flows through UI and state management improvements.

Recruitment Management System (MERN)

Amnil Technologies

- Built a scalable Candidate tracker using Node.js, Express.js, MongoDB, and React.js (TypeScript).
- Implemented Google OAuth for authentication and Redux for state management and RTK for APIs management, ensuring secure data flow.
- Optimized MongoDB aggregation pipelines for faster financial analytics.
- Implemented validation logic to ensure candidates cannot progress to the next stage without completing the current stage.

Hotel Accommodation System (Node.js)

Wisdom Technology

- Designed backend architecture using Node.js, Express.js, and MongoDB.
- Developed secure authentication & authorization with Google OAuth.
- Integrated Khalti for seamless online transactions, enhancing payment efficiency.
- Implemented Twilio integration for automated booking notifications.
- Ensured structured, maintainable code by following Software Requirement Specification (SRS) guidelines.

EDUCATION

Bachelor of Science in Computer Science & Information Technology (BSc. CSIT)

Academia International College (2021 – 2025)

+2 Science (Computer Science)

Global Educational Academy (2018-2020)

CERTIFICATIONS & TRAININGS

MERN Stack Development Training — Oct 2024
