PROFESSIONAL SUMMARY

Full-Stack Developer and Postgraduate Computer Science student at York St John University in London, with hands-on experience building and shipping enterprise fintech applications serving 200+ bank branches. Proficient across the full stack: React.js, Next.js, Node.js, Nest.js, TypeScript, REST APIs, PostgreSQL, and MongoDB, with additional experience in API security, OIDC authentication, agentic AI workflows, and AI-native SDLC practices.

EXPERIENCE

QA Engineer (Part-Time) 09/2025 – 09/2026
CrawlerHub

- Created, maintained, and executed detailed test cases based on functional requirements and expected user behaviour.
- Identified, documented, and tracked software defects, providing clear reproduction steps and supporting information for development teams.
- Collaborated with developers to investigate issues, verify fixes, and ensure defects were resolved before release.

Associate Software Developer 06/2025 – 08/2026
Amnil Technologies Pvt. Ltd

- Developed and maintained 4+ scalable full-stack FinTech applications supporting operations across 200+ bank branches, including Bank Teller, Account Opening, Trade Finance, and Document Management systems.
- Independently delivered the Document Management System with 100% of planned features on schedule, improving CBS document viewing and uploading efficiency by 75%.
- Collaborated with FinTech clients and stakeholders across the SDLC, implementing OIDC authentication, API integrity validation, and agentic AI workflows to deliver secure, user-focused banking solutions.
- Worked within an AI-native SDLC, leveraging AI-assisted development practices throughout the software development lifecycle.

Software Development Intern (React.js) 02/2025 – 05/2025
Amnil Technologies Pvt. Ltd

- Built and integrated frontend components using React.js, strengthening core JavaScript fundamentals including ES6+, event handling, and DOM manipulation through real-world application development.
- Integrated frontend components with Node.js and REST APIs.

Software Development Intern (Node.js) 08/2024 – 02/2025
Wisdom Technology

- Designed and developed RESTful APIs using Node.js and Express.js, optimizing database schemas and queries to improve data flow, storage, and retrieval efficiency, with comprehensive unit testing and API documentation.
- Integrated Khalti payment gateway and OAuth-based authentication, conducting developer-level testing to ensure reliable, secure, and seamless third-party service integration.

Secondary Computer Science Teacher (Part-Time) 07/2022 – 06/2024
Deepika School

- Instructed 40+ secondary-level computer science students, developed lesson plans, and mentored students in practical and theoretical concepts.
- Recognized for achieving the highest average GPA in the SEE 2080 (Class 10) final exams.

SKILLS

Languages & Frameworks: TypeScript, React / Next.js, Node.js, Nest.js
Databases: PostgreSQL, MongoDB
Tools & Platforms: Docker, Git, GitHub, Jenkins, CI/CD
Concepts & Practices: OOP, REST APIs, OIDC Authentication, API Security, Agentic AI Workflows, AI-Native SDLC, Requirements Analysis, Client-Facing Development

EDUCATION

York St John University London, UK
MSc Computer Science. *Present*
Academia International College
Bachelor of Science in Computer Science & Information Technology. *2025*
